

THE BRIGHTEST IDEAS GO HAND IN HAND

TEMPSMART®
Temporary Crown & Bridge Material

First in Class Fracture Toughness

- Shortest setting time
- Fracture toughness ideal for provisional restorations
- Premium gloss retention and high polish
- Exceptional flexural strength
- Easy to repair
- Low-oxygen inhibition layer for better polymerization

High Gloss Provisional

High polish and microfilled resin (MFR) dispersion technologies result in extremely strong and amazingly esthetic bis-acrylic provisionals with the look and feel of natural tooth structure.
